Overview

Background

In Alberta, public library service is supported through shared funding between the provincial government and participating municipalities. The Public Library Services Branch of Alberta Municipal Affairs is the agency responsible for overseeing the Alberta *Libraries Act* and *Regulation* and for the development of public library service in the province.

Public library boards are required to submit an annual report to Alberta Municipal Affairs reporting statistics related to public library service delivery. The data from each library's annual report is published in the document *Public Library Statistics*. Financial details are taken from financial reports filed by each library board.

Availability and Access

In 2008, public library service was available to 99.5 per cent of Albertans from 310 service points operated by 227 municipal and community library boards. Seven regional library systems provided service to 253 library service points in 291 municipalities. Membership in a regional library system allows libraries to take advantage of economies of scale when purchasing goods and services and provides access to expertise in the areas of library service, management and governance. Additionally, the seven systems facilitate resource sharing among member libraries. In 2008, over 1.2 million people (36 per cent of the population) were served by libraries supported by a library system.

Across the province, online access to library catalogues helps ensure all Albertans have equitable access to library resources province-wide. Albertans make good use of library resources: In 2008, 49.7 per cent of adult Albertans reported that they had used a public library; 61.5 per cent of Albertans reported that someone in their household had used a public library. Availability of physical and virtual library resources online through websites and online catalogues has enabled Albertans to dramatically increase their usage of those resources. In 2008, library visits exceeded 38.7 million. This included 17.4 million in-person visits and 21.3 million "virtual" visits to library websites and catalogues.

Interlibrary loan service continues to be a vital component of library service in Alberta with over 2 million transactions during the year. In total, 45.9 million items were either borrowed directly, interlibrary loaned or used in-house at Alberta's public libraries in 2008.

Funding

Public library service is a municipally-based public service. As such, most funding for public libraries comes from local municipalities. In 2008, local support accounted for 71.6 per cent of total revenue for municipal library boards. Provincial support made up 9.7 per cent of total revenue for municipal library boards.

Library systems also receive funding from member municipalities and the province. In 2008, systems received 35 per cent of their revenue from member municipalities. The province provided 36.6 per cent of total system revenue, including residual PLDI (Public Library Development Initiative) funding. PLDI was a one-time funding initiative that was disbursed in 2007.

In addition to library grants, the province also provides support for the provincial public library network. This includes funding for The Alberta Library (TAL), the Alberta Public Library Electronic Network (APLEN), SuperNet connectivity and the provincial resource sharing contract. With the exception of TAL, these initiatives are 100 per cent funded by the province, at a cost of 3.4 million dollars per year.

Alberta's public libraries continue to experience positive growth in usage and provision of quality service to the constituents of Alberta.

Definition of Library Types

Library System

Established by agreement between municipalities and/or school authorities as provided for under Section 13 of the Libraries Act, Ch.L-11. A system is supported by local taxes. It is governed by a board consisting of one member appointed by each participant and additional members appointed in accordance with the Libraries Regulation. There are seven library system boards with 21 sites/service points. (Edmonton and Calgary are excluded from systems.) The statistics related to the holdings and activities at these services points are listed under Library Systems – Output Measures. Statistics related to the activities undertaken by library systems as service providers to libraries are found in sections entitled "Library Systems."

Municipal Library Board

A municipal library board is established by passage of a bylaw under Section 3 of the Libraries Act, Ch.L-11. A municipal library is supported by municipal taxes and is governed by a board of not less than five and not more than ten members, all appointed by the council of the municipality. No more than two members of council may be members of the Board. In 2008, there were 227 municipal library boards and 310 sites/service points, including 2 bookmobiles.

Community Library

Established, governed, and supported by an association of persons, whether incorporated or not, and authorized by the Minister, under Section 25 of the Libraries Act, Ch.L-11, to provide library services to the public in a given area. It is governed by a board which is a corporation. In 2008, there was one community library board remaining in the province, operating one service point.

Notes

Information Sources

Data for this publication comes from the *Annual Report and Survey of Public Libraries* distributed to all library boards in the province. Financial data is derived from financial reports and audits provided by each board.

Financial Data

Because there is no standard reporting form and reports are not limited to operating costs, financial information may include debt charges and transfers to and from other accounts. We have attempted to represent the information provided by each board as accurately as possible.

Direct payments are amounts reported by municipalities that either supplement or replace board expenditures in the areas noted. These arrangements are authorized by agreement between board and council.

Population Per FTE Staff

Boards with less than one FTE have had this calculation based on the equivalent of one FTE = 35 hours per week. This is because many boards use volunteer staff, are open less than 35 hours per week, or, if they are in a school, have an arrangement with the school to use its staff.

Cardholders Per Capita

Several of the small libraries serve people in surrounding rural areas with a population base greater than the village itself. In these libraries, the number of card holders may be greater than the actual population of the village

Customer Satisfaction

One method Alberta public libraries have used to determine user satisfaction with library resources and services is through a survey completed by library users indicating their satisfaction on a scale from 1 to 5.

Calculations for averages are based upon those libraries reporting on any given question.

Notes (Cont'd)

Electronic Performance Measures

The Electronic Performance Measures reported are based on measures defined in the Electronic Performance Measures Implementation Guide. Public libraries in Alberta have been reporting on these measures since 2001. Note that not all library service points report on all Electronic Performance Measures. Calculations for averages are based upon those libraries reporting on any given question.

Libraries participating in the TRAC consortium share a joint online catalogue. As such, it is not possible to collect data on library catalogue visits for individual libraries.

In the case of some other library system members, their website is part of a larger joint website where data on hits for individual libraries is also not available.

Notes

+ indicates the board is a joint board operated by two or more councils

Definition of Terms

All Materials	Includes print materials, audio visual materials, toys, games, micro materials, etc.
Appropriation	Tax appropriation by municipality which appoints the library board and includes payments made directly by councils.
Area	Recorded in square metres. Multiply by 10.76 to obtain square footage.
Averages	Average of all reporting libraries.
FTE	Full-time equivalent in paid staff hours based on a minimum of a 35 hour week.
Hours Open	Number of hours per week including all branch hours where applicable.
Operating Expenditure	Excludes debenture payments.
Totals	Total (data) of all reporting libraries.
Turnover	Calculation of library materials turnover (Circulation divided by Total Collections)
Percentage of Time Workstations in Use	The percentage of open hours wherein public workstations are used. Calculated as total hours workstations are in use divided by the total hours workstations are available. Generally based on a one week sample.
